FILTRATION : Made by: _____

- Final
- Pre-assembled not functional (Finalization of the installation by a technician not billable)
- On pallet functional (No sand in the filter, repositioning/travel fee not billable)
- On pallet functional (Sand in the filter to the customer's request, repositioning/travel fee billable. In that case, the intervention of an Okeanos technician to reposition/move the filtration to a final area will be billable (*travel fee, technician's time and parts*))

Customer initials _____ "read with the Okeanos team manager"

FOR THE APPOINTMENT REQUESTS (Filtration set up or first commissioning) please contact the After-Sales Department at least 1 week before the preferred intervention date.

WINTERIZING (installations from Sept to Nov.) :

- Yes (Complete, bottom drain included)
- No at the customer's request** (In this case, if the customer wishes Okeanos to winterize the pool afterwards, he/she must contact customer service and the wintering will be billed at \$500+tx + Accessories and Chemicals. Only one date will be proposed by Okeanos depending on the wintering schedule.)

INSTALLATION APPENDIX

WARRANTY REMINDER :

1. **A 50-year warranty** is applied from the date of installation on the waterproofness of the pool structure.
The following are excluded from this warranty:
 - The wall penetrations (water returns, skimmer, and lights) which are guaranteed by the manufacturers for a period of 2 years.
 - The damage due to the movement of the pool caused by a water level lower in the pool than in your dewatering well or a water level too high in the ground.
 - The damages due to freezing and thawing. It will be important to insure your pool with your insurance company.
 - The gelcoat (finishing coat/paint) of the pool.
2. **Product containing copper sulfate or iron sulfate must not** be used in the pool or the warranty will be void.
3. **The equipment included in the purchase order is covered by a warranty of 1 to 3 years** honored by Okeanos or by the manufacturer depending on the equipment.
4. **The warranty is only transferable if the new owners contact us.** A first commissioning will have to be done by an Okeanos technician so that the new owners can see how the equipment works. This is a mandatory service for the warranty transfer and will be billed at 500 \$ + taxes.
5. If an intervention is required at the water return jets, light(s) or skimmer, the work for the access to the parts mentioned would be at your charge if no access or trap doors were planned in the landscaping.

CUSTOMER RESPONSIBILITY :

6. **The location of your pool is under your responsibility,** Okeanos Ontario will not be held responsible for any changes in positioning (requested or necessary) following the approval of the permit.
7. **The fence is mandatory** (Federal and Provincial law on pool safety). Okeanos Ontario cannot be held responsible for any accident that may occur during or after the installation of your pool.
8. The installer will bring 2' x 4' wood supports to be installed inside the pool. These wood supports **must remain in place throughout the installation process and be left or put back in place to proceed with the landscaping around the pool.** The customer must keep them to reposition them in the pool if he wants to lower the water level later.
Warning: Emptying a pool is never without risk. The customer must always contact Okeanos Ontario before proceeding with the emptying.
9. **You must insure your pool with your insurance company.** The Okeanos Pool warranty does not cover damage due to freezing and thawing.
10. * *When installing an assisted kit, the Okeanos team will not be present during the final backfilling of the vertical walls. It is the customer's responsibility to backfill correctly at the same time as the water is filled in. Any bulging of the pool due to rapid filling with water or bending due to rapid backfilling with gravel will not be covered by the warranty.*
